I am a full stack developer with a strong focus on backend development using Java and Spring Boot, and experience in frontend technologies like Angular. I'm also knowledgeable in Agile methodologies. I am autonomous, a fast learner, and passionate about embracing challenges and continuously expanding my skills.

PROFESSIONAL EXPERIENCES

UpWork - Freelance

Sept 2024 - Present, Remote

- Implementing backend APIs and fixing bugs as needed.
- Developing with Angular, including debugging and resolving customer reported issues.
- Attending customer meetings to discuss progress and resolve issues.

JobInTech - Bootcamp

March 2024 - September 2024, In Rabat

- Projects** : Jit-Pilote for JobInTech, UIR-SHOP for UIR, Career-Hub
- Contributions** :
 - Implemented REST APIs with Spring Boot by applying standards and best practices, including SOLID principles and debugging as needed.
 - Developed with Angular, including debugging and resolving customer reported issues.
 - Created unit tests with JUnit.
 - Built and designed responsive user interfaces with TailwindCSS.
 - Participated in daily meetings, sprints and contributed to Agile project management with Jirra.
 - Managed SQL databases ensuring smooth integration with backend services.

Training Edge Consulting - technical internship

Oct 2023 - Feb 2024, In Beni Mellal

- Project** : Collaborating in the development of a web application from scratch. Its main objective is to facilitate the management of employees of a company, offering them the possibility of taking exams in order to evaluate their professional progress within the organization.
